HEAT SINK CHANGE FOR NEBULIZER UNIT NB-80 SERIES

We would like to change the heat sink mounted on the NB-80 series of nebulizer units.
We will report changes and schedule summary below.

<Background>

The production base of the corresponding heat sink supplier has closed.
Therefore, with the change of the supplier, it changes to the heat sink with equivalent performance.

<Change contents>

The cross section of the corresponding heat sink was coated with alumite After the change,
the alumite treatment will disappear. However, there is no change in the heat sink base material and alumite material.
There is no change in the shape and characteristic specifications of the nebulizer unit as a result of this change.

<Target product>

The change target product is NB-80 series.

<Schedule>

Production of a nebulizer unit with a modified heat sink is scheduled to begin in August 2019.

Planned Date: 2019/Jul	Response Date By: 2019/Jul/12	Last Order date for current spec: 2019/Jul/31
