

Immerse Tin Plating

Seno Tin Plating Powder 90g for 1 litre

A unique stable immerse tin powder that although dissolved in water at 50°C is allowed to cool and use at room temperature. The tin molecules deposited at room temperature are very small making the coating fine, hard and homogenous. Working solution has 6 months shelf life, unmixed powder has unlimited shelf life. Sufficient to make 1 litre (90g) board coverage approx. 0.5m².
