Enable Bluetooth™ Streaming on Non-Bluetooth™ Devices

Need to connect wirelessly, via Bluetooth™ to non-Bluetooth™ devices such as TVs, loudspeakers or other lifestyle products?

The compact and stylish

BT-USB-V-G2 is a totally Plug n' Play Bluetooth(™) adapter that can operate in either Transmit or Receive mode, thus enabling Bluetooth(™) connectivity to non Bluetooth(™) devices, home audio etc.

Stream music, movies or almost any type of multimedia data by simply plugging the supplied USB adapter to a vacant USB port on your device.

Want to use it as a regular Bluetooth(™) device on your computer? No problem, simply plug into your windows(™) device and follow the simple pairing function and see the confirmation via its on-board status LED.

specifications:
