SURGE 4-in-1 LED + Laser Effect

Compact lighting fixture with 4 different dynamic and colourful effects. The main derby effect is powered by 9 different colour LEDs delivering twisting beams across a wide area. Each side of the main derby window are 3 dual colour LEDs for ultraviolet washes or cool white strobe effects. Below the derby window are red and green laser apertures, which produce sharp geometric patterns directly to the front of the fixture. Internal auto and sound activated programs employ a combination of the 4 effects to produce dazzling colour displays and each function can be accessed via DMX or from the included remote control handset. A space-saving and efficient solution for mobile and installed lighting setups.

- 4 lighting effects in one compact housing
- Geometric red & green laser patterns
- Supplied with IR remote control
- Wide angle 9 colour LED derby effect
- 6 x strobe + UV LEDs
- DMX512 compatible

Power supply 110-240Vac, 50/60Hz
 Fuse F3AL
 Power consumption 30W
 LED : spot 9 x single colour
 LED : wash 6 x UV/white

Laser power Red 120mW + Green 30mW
 Modes DMX, auto, sound-activated, master/slave
 DMX channels 9
 Dimensions 200 x 200 x 160mm
 Weight 1.62kg
