

Paddle Mixer

M6600X

The MT series from Makita offers a comprehensive list of tools at an affordable market price. Produced to a standard far exceeding that of the DIY market, the MT series combines industrial build quality with fundamental professional requirements, without the professional price tag. The MT series is therefore tailored to suit all discerning home-users, apprentices and trade users, who don't require all the features of a high-end professional machine, just a robust and reliable tool to get the job done.

MT series tools are produced in the same worldwide Makita factories as fully fledged Makita tools, and are subject to the same stringent quality control processes.
