HARTING Product Change Notification

PCN

Business Unit: Electric

PCN/19/003/C+N

Product range: Han / Han-Modular

Date: 2019-02-15

Author: Heinz-Guenter Spreen

Title: Han PE Module surface treatment - External.docx

Details of Product Changes

1. Concerned part number:

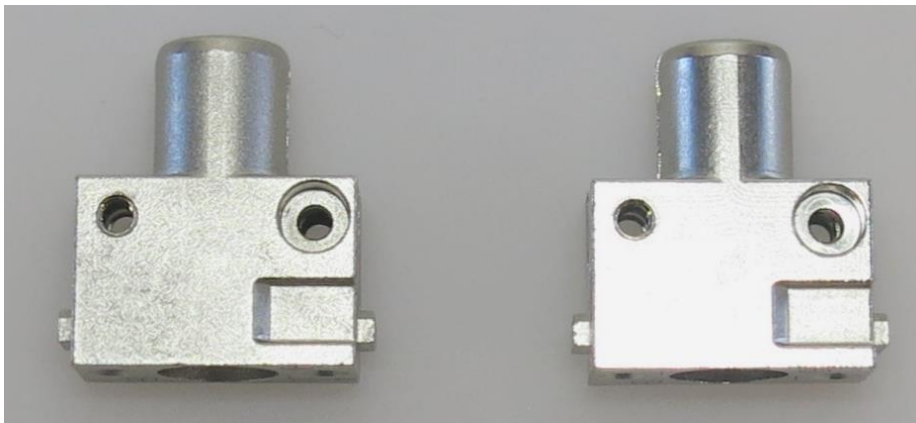

09140012632	09140012633	09140012634	09140012636
09140012732	09140012733	09140012734	09140012736
09140013072	09140013073	09140013074	09140013172
09140013173	09140013174		

2. Description of changes / news:

We are going to change the surface treatment of the die cast zinc shell from sand blasting to vibratory grinding before the coating.

Sand blasted shell

New vibratory grinded shell

3. Impact on product specification:

The modification has no influence on specifications, handling and applications.

4. Scheduled date of implementation:

First vibratory grinded items are scheduled to be available in July 2019
