

SILICONE GREASE 70 FOR LUBRICATION AND INSULATION

SILICONE GREASE 70 is a multi-purpose lubricating, insulation and weatherproofing agent.

APPLICATIONS

The product provides a smooth, non-melting coating which offers high surface resistivity and excellent resistance to tracking and arcing. The dielectric properties prevent leakage and flashover on high voltage parts and connections.

Silicone Grease 70 is also highly effective as a weatherproof to prevent moisture ingress and can also be used as a multi-purpose lubricating agent, e.g. to ease cables through conduits, slow running gears and all moving parts and components.

N.B Do not use on live electrical equipment. After applying, always leave for 4/5 minutes before operating equipment.

TECHNICAL DATA

Appearance	:	Cloudy white liquid
Odour	:	Hydrocarbon solvent
SG @ 25°C	:	0.81
Pressure @ 25°C	:	3.4 Bar
Discharge Rate	:	0.75 g/sec
Temperature Range	:	Operational from -50°C to +200°C
Solubility	:	Soluble in most solvents, insoluble in water
Flammability	:	Classified as extremely flammable under CHIP Regulations
Flashpoint	:	Not applicable in sealed aerosol
Packaging	:	200ml aerosol

STORAGE

The product may be stored at normal ambient temperatures and has a shelf life of not less than 72 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flame.

HEALTH AND SAFETY

Health and Safety sheet available separately.
