

6 Spot Humidity Indicator Card

RoHS
Compliant

Features

Humidity Indicator Cards (HICs) provide a low-cost method of indicating humidity conditions inside a moisture barrier bag after vacuum packaging. The indicator spots on the HICs change color from blue to pink as humidity increases and from pink to blue as humidity decreases.

Specifications

Indicates	: 10, 20, 30, 40, 50, 60 (% RH)
Size	: 1.5625" × 4.75"
Shelf Life	: 5 years

Our HICs

Offer superior protection, especially when used with our Desiccants and Moisture Barrier Bags

Construction

HICs are constructed of a moisture-sensitive blotting paper.

Configurations

The number of indicator spots on the HIC varies, depending upon the range of humidity to be measured. The product is shipped in airtight tins to prevent exposure to moisture.

Storage Temperature Instructions:

Store the original package in a room with an ambient temperature between 15°C to 35°C

If the product are in an airtight tin it will not be a problem in extremes heat. Every time the tin is opened it will be exposed to moisture in the air, so advisable to store in low humidity conditions to have a longer shelf life. In case low humidity condition is not possible by changing the desiccant in the tin will help to remove some of the moisture ingress.
