

Masterline

1) Large reflector nozzle

For shaping and shrink-fitting large diameters

Prod. no. 073015 = Order code 311-6815

(2) Window nozzle, 75 mm

Deflects to prevent panes of glass, etc. from overheating

Prod. no. 070410 = Order code 311-6785

(3) Surface nozzle, 75 mm

Spreads air over wider area for drying, paint stripping. etc.

Prod. no. 070212 = Order code 107-576

(4) HL gun stand

Holds the gun in position for a variety of work processes

Prod. no. 075415 = not available

(5) Reflector nozzle

For soldering pipes and fitting heat-shrinkable sleeves

Prod. no. 070519 = Order code 311-6797

(6) Window nozzle, 50 mm

Deflects to prevent overheating in narrow spots

Prod. no. 070311 = not available

(7) Surface nozzle, 50 mm

Spreads air over smaller areas, e.g. for waxing skis

Prod. no. 070113 = Order code 149-965

(8) Wide-slit nozzle

For welding plastic sheeting. Fits on 9 mm reflector nozzle

Prod. no. 074715 = Order code 311-6864

(9) Soldering reflector nozzle *

For soldering and shrink-fitting soldering sleeves and shrink-on tubing

Prod. no. 074616 = Order code 311-6852

(10) Reduction nozzle, 9 mm *

Pinpoint source of hot air for de-soldering and for welding PVC

Prod. no. 070618 = Order code 108-212

(11) Reduction nozzle, 14 mm *

Pinpoint source of hot air for de-soldering and for welding PVC

Prod. no. 070717 = Order code 311-6803

(12) Reduction nozzle, 20 mm

For a focused jet of heat, e.g. for edgebands
Prod. no. 070816 = Order code 108-213
