

Grooved Fiberglass Fish Tape 200-Foot

Klein Tools' Multi-Groove Fiberglass Fish Tapes feature a low-friction, easy feed design. The grooved profile and fiberglass core provide rigidity for long distances and less surface contact with wires when pushing through crowded conduit. The non-conductive fish tape and non-conductive eyelet tip offer added protection against shock from energized sources.

Specifications

Overall Width:	0.188" (0.5 cm)	Material:	Fiberglass
Tape Size:	200' x 3/16" (61.0 m x 0.5 cm)	Diameter:	17" (43.2 cm)
Weight:	6.0 lb (2.7 kg)
