

Low-Voltage Tester

This device checks live 6-24V, AC or DC circuits. Tests for shorts in automotive and truck electrical systems, motor field coils, radio and low-voltage circuits, ground circuit of all lamps, wiring, fuses, etc. Pointed 3-3/4" (95 mm) probe makes checking easier.

Specifications

Type: Low-Voltage Tester	Application: Checking Live 6-24V, AC or DC Circuits; Testing for Shorts in Automotive and Truck Electrical Systems, Motor Field Coils, Radio and Low-Voltage Circuits, Ground Circuit of All Lamps, Wiring, Fuses, etc.
Special Features: Pointed 3.75" (9.5 cm) Probe Makes Checking Easier.	Overall Length: 43.25" (109.9 cm)
Weight: 0.21 oz (6.0 g)
