

Probe-PRO Tracing Probe

The professional series Probe-Pro Tone Tracer traces non-active wiring when used with Toner-Pro Tone Generator (VDV500-063, sold separately). It features a responsive, durable, replaceable non-metallic, conductive tip and a work light for use in dark spaces. A headphone jack allows for headphone (not included) use in extreme noise environments. The terminal block confirms the toned pair has been located.

Specifications

Type:	Accessory Probe	Application:	Wire Tracing
Special Features:	Worklight, Stay on Power Button	Material:	Plastic and Metal
