24 port 1U angled keystone panel

24 port angled empty keystone panel (FFK24mtmi)
This highly specified panel is designed to facilitate cable management of high performance (e.g. Category 6A, 7 or 8) network cabling. Suitable for UTP and shielded jacks, supplied with a snap on rear cable management bar.

Features

- Angled style improves patch lead management

- Suitable for a wide variety of keystones (up to 18mm wide)

- Mounts to any standard 19-inch rack, cabinet or wall bracket

- Clear numbering on the front provides a quick, easy way to identify cable run

- Slip-in label facility for port identification

- Folding design results in compact space-saving packaging of unused panels

- Supplied with cable ties and earth wire

- Suitable for FTP or UTP installations

Specifications

- Weight: 800g approx. (in carton)

- Dimensions (assembled): 470 x 43 x 260mm approx. (L x H x D)
