

Please note Smithy Industries are no longer able to supply the 239-940 Security autodialler with Magnetic contacts and cable. Apart from the omission of these items from future shipments, the spec. remains unchanged.

I have allocated a new FEC order code 479-743 for future shipments and a legend on screen warns of the omission of the contacts and cable. The price remains unchanged.

Regards

Ed

PS we still have stock of
with contacts & cable

P.T.O. for reply.
