

# Series TW 2100

## IC insertion tools

- All metal design with grounding facility against static charge.
- Precision insertion of ICs into sockets, circuit boards and other plug and socket couplings.
- Smooth-working pressure device ensures precise handling and absolutely parallel insertion without twisting.
- Indispensable for laboratory, servicing and field testing.
- Available for 8-pin to 64-pin DIL circuits.

Ordering NO.	Used for	Contact row spacing mm/inch
TW 2100-08	8 pins	7.62/0.3
TW 2100-14	14 pins	7.62/0.3
TW 2100-16	16 pins	7.62/0.3
TW 2100-18	18 pins	7.62/0.3
TW 2100-20	20 pins	7.62/0.3
TW 2100-22	22 pins	10.16/0.4
TW 2100-24/3	24 pins	7.62/0.3
TW 2100-24/6	24-28 pins	15.24/0.6
TW 2100-40	40-48 pins	15.24/0.6
TW 2100-64	64 pins	22.86/0.9
