Subject: **NPA-201/NPB-101 Obsolescence Notice**
To: Our Customers

On 12/04/2019, Amphenol Advanced Sensors sent out a production warning notice (NPA-201 and NPB-101) to all customers and distributors this was advising our lead-times were expected to go beyond 52 weeks due to a change in manufacturing location, it was suggested that stock/safety stock orders should be placed by 1/31/20.

Unfortunately, due to circumstances out of our control relating to supply chain and lack of supplier support issue we have to discontinue our NPA 201 and NPB 101 product as of 6/30/2020. We will accept new order for these products on first come first serve basis till 08/15/2020. Please be advised that new orders are Non-Cancellable & Non-Returnable. We only have limited stock available.

Your business is important to Amphenol Advanced Sensors and we remain committed to delivering latest technology to meet your sensor application requirements. We will be launching a new enhanced performance barometric pressure sensor soon. Keep in touch.

We very much appreciate your support and acceptance. Any further question please contact your Amphenol Account Manager.

Thank you,
