 PRODUCT CHANGE NOTICE

MAXIM INTEGRATED HEREBY ISSUES NOTIFICATION OF CHANGE
THAT MAY AFFECT THE FOLLOWING CATEGORIES:

<input type="checkbox"/> DESIGN	<input type="checkbox"/> WAFER FAB	<input type="checkbox"/> ASSEMBLY	<input type="checkbox"/> TEST	<input checked="" type="checkbox"/> ELEC/MECH SPECS
---------------------------------	------------------------------------	-----------------------------------	-------------------------------	---

AFFECTED PRODUCT:

Ordering P/N: (See PN listing XLS in PCN ZIP file)
--

CHANGE FROM: Package Outline SC70 (3 terminals)
Package Outline Drawing (POD ref. no. 21-0075, rev. D)
currently shows limits for dimension L (heel to lead end) as
0.1mm/min. to 0.4mm/max

END VIEW

CHANGE TO: -

These limits will change to match the JEDEC spec of
0.26mm/min. to 0.46mm/max

JUSTIFICATION: This L measurement change aligns with JEDEC to revise Maxim's original POD initially created in 1998. There are no assembly changes at our manufacturing facilities for products assembled in this package type. We have confirmed with measurements with current assemblies that we are within the JEDEC L dimension specification limits. The Form/Fit/Function remains unchanged. Note: This PCN is an Information Notice only and is effective immediately.

TRACEABILITY: Maxim Integrated maintains full traceability by device marking, packaging labels and shipment documents.

Maxim Integrated's Change Notification System is designed to keep our customer base apprised of major product, manufacturing, or facility improvements.
