Automatic, Non Contact, Rapid Test, Infrared Temperature Scanner

Automatic temperature scanner specifically designed to assist in current battle against COVID-19 and other infections. The thermometer can be wall mounted or positioned on a tripod, situated in a position where a high number of people are entering a premises and capable of taking multiple temperature readings within a short period of time. Ideally suited for the entrance to schools, office buildings, retail shops, gyms, etc, and eliminates the need for a member of staff to approach visitors.

Please note: *This is not a medical device and should not be used for diagnostic purposes. We recommend the use of a medical body thermometer to confirm high temperature readings.*

Product Features:
- Automatic temperature measurement
- Easy and safe
- Energy saving
- USB cable power supply
- Hanging hook or adhesive fixture
- Connects to PC for remote reading and measurement storage
- High accuracy and fast response time
- Long measuring distance
- High temperature alarm
- Large, high definition LCD
- Tripod stand available*

Product Specifications:

Infrared range:	LCD display: +32 to +43°C
	PC display: 0 to +50°C (surface only)
Response time:	0.5 seconds
Measuring distance:	5cm to 10cm
Accuracy:	+/- 0.2°C (between +34 & +43°C
Operating temperature:	+10 to +40°C (recommended +15 to +35°C)
Counting capacity:	999
Alarm (body mode only):	Normal: 1 beep + green flashing light
	High (Hi) >37.5°C: 3 beeps + red flashing light
Measurement:	Automatic, non-contact measurement
Screen:	Digital display
Power Source:	USB mains connection
Compatible Battery:	Suitable for use with lithium 18650 battery*
	Average battery charge life: Approx one week
Installation methods:	Hook, double sided adhesive or tripod*
Net Weight:	263g
Gross Weight:	400g
Product Dimensions:	171mm x 115mm x 140mm
Box Dimensions:	140mm x 180mm x 115mm

* Tripod and rechargable battert not included as standard - additional charges applicable
