Description

The Oil Only booms are made from a white spun bond outer layer, with a recycled hydrophobic absorbent core and surrounded by a high tensile strength outer nylon netting. Making our Oil Only booms the perfect solution for fast and effective recovery of oil spills on water.

These booms are designed for the containment and recovery of oil from water, with carabiner clips to attach booms together to make a large continuous boom. An all in one construction prevent booms falling apart on recovery, carefully secured rope runs alongside to prevent twisting.
