

## Description

It is a highly efficient electrical contact cleaner, offering a combination of electrical cleaning and a residual lubricating film for contacts switches and relays.

## Specifications

Cleaner Type	: Electrical, Electronics
Dispensing Method	: Can
Volume	: 200ml
Chemical Colour	: Clear
Pack Quantity	: 1

## Applications

This helps to reduce voltage drop between contacts by increasing the surface area and reducing resistance. The lubricating film resists drying and the attraction of dust. Enhances electrical conductivity and reduces the possibility of arcing between contacts.

## Directions

Apply directly onto the contacts to be treated. After spraying, always leave for at least 4/5 minutes to allow dispersal of solvent vapours, before operating the equipment.

## Technical Information

Appearance	Clear liquid
Odour	Solvent
SG at 25°C	0.7
Discharge rate	0.93g/second
Temperature range	Operational up to 150°C
Solubility	Soluble in hydrocarbon solvents, insoluble in water
Recommended solvents for removal	Pro-Power degreaser
Flammability	Classified as extremely flammable under CHIP regulations
Flashpoint	Not applicable in sealed aerosol

## Storage

The product may be stored at normal temperatures and has a shelf life of not less than 36 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flames.

### Note:

Contains flammable solvents, not for use on live electrical equipment.

## Part Number Table

Description	Part Number
Contact Cleaner, 200ml, Aerosol	PPC110
