

Fibre Optic Stripping Tool

- Removal of 250 micron primary acrylate (buffer) coating from 125 micron optical fibres
- 0.0055 inch (0.14mm) diameter hole and V-opening in blade allow for accurate buffer coating removal
- Factory set, requires no adjustment
- All cutting surfaces are precision formed, hardened, tempered and ground assuring precise buffer removal
- Prevents scratching or nicking of optical fibre
- Durable hot dipped handles
- BT reference: fibre stripper 10A
- Length: 136.53mm, Weight: 71g
