Product Features

Effortless Syncing & Backup

Compatible with both Mac and PC computers, as well as iOS and Android™ devices.² Set up sync and backup for multiple devices with the included software.

Centralized Storage

Store all your favorite photos, videos and files in one place. Search by date, time or keyword to quickly find your favorite memories and create photo albums or folders.

At Your Fingertips

Remotely access and share your files on-the-go from anywhere you have Internet. Organize and easily find favorite memories with the intuitive My Cloud™ Home app from any desktop, tablet or mobile device and without subscription fees.

Privately Share with Friends and Family

Share a link to a folder, a set of files or a photo album to one or multiple people. Collaborate in a folder with others to share files, photos, videos or documents seamlessly. Add users, with a private space for every additional user added to your device.

Without Monthly Fees

You can store, access and share your photos, videos and files without monthly fees.

Adding Content & Integration

Store files from your external drives, USB flash drives, and cloud accounts. Plug directly into the USB port or set up automatic downloads from popular cloud services.¹ You can also tailor your device by connecting to media streaming services. Stream videos with smooth playback anywhere, on any compatible device.
