

PRODUCT CHANGE NOTIFICATION

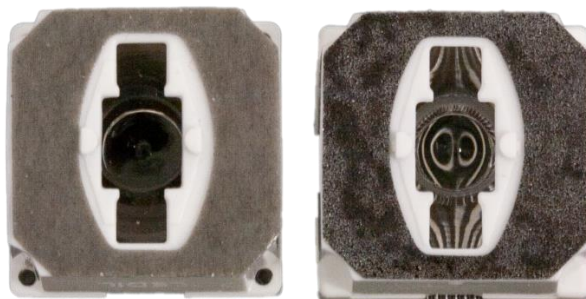

Date: October 14th, 2020
PCN: PCN LEDIL 169

Subject: PCN 169 - Change of adhesive tape material

Description: As part of our continuous improvement process regarding availability of our products, LEDiL will change the 0.4 mm thick polyurethane foam tapes to acrylic foam tape in all LEDiL products. The old tape, that has been used in our product assemblies, is not available as it has been suspended by the tape manufacturer. Based on extensive testing the new adhesive tape will perform as well or better than the previous adhesive tape. This change has already been successfully implemented for some FA*, FC* and FCA* products (PCN 163) and is now due to be implemented also in the following products listed in this PCN 169

Timeline: This change is valid immediately, but we will deplete old stock first.

Changes: The 0.4 mm thick polyurethane foam tapes will be changed to acrylic foam tape for the following products listed in this PCN.

NEW TAPE

OLD TAPE

LEDiL Acrylic tape document:

[https://www.ledil.com/adhesive_tape_\(acrylic\)](https://www.ledil.com/adhesive_tape_(acrylic))

Affected products: Pages 2-6
