Item #: **SWJ-100A**
2-to-1 CAT5 Fast Ethernet Manual Desktop Switch - RJ45

Securely access two 10/100 Mbps networks.

PRODUCT FEATURES

- Toggle between two separate Fast Ethernet networks from one PC eliminate a dual-workstation setup
- Also enables two PC users to take turns accessing a single Fast Ethernet connection
- Guaranteed for life

Details:

- Ideal for switching between secure and nonsecure networks at the desktop.
- Switches 100BASE-T 100-MHz signals.

The 100-Mbps ABC Manual Switch is a manual switch ideal for toggling between two separate Fast Ethernet connections from one PC, eliminating a dual-workstation setup.

Conversely, the 100-Mbps ABC Manual Switch can also be used to enable two PC users to take turns accessing and sharing a single Fast Ethernet connection.

The switch is perfect for secure and nonsecure connections at the desktop, and it is guaranteed for life
