

Product Change Notice (PCN)

Subject: Alternate bond wire material and assembly facility of the listed Renesas QFN packaged products

Publication Date: 11/20/2020

Effective Date: 7/31/2021

Revision Description:

Initial Release

Description of Change:

Alternate bond wire material and assembly facility of the listed Renesas QFN packaged products

- *UTAC Thai Ltd., Bangkok, Thailand (UTL)*

List of changes :

- Table 1 – Adding UTL as alternate assembly site, Wire material change from Gold to Copper and Standardize Moisture Sensitivity Level to MSL3.
- Table 2 - Adding UTL as alternate assembly site.

This notice is an Initial Product Change Notification to inform you about an upcoming change of the manufacturing facility of Quad Flat No Lead (QFN) product.

Reason for Change:

Adding UTL as alternate assembly site will expand current capabilities and capacities to optimize Renesas's ability to meet customer's delivery requirements. UTL facility is ISO9001:2015 and IATF 16949:2016 certified. UTL is existing assembly supplier for high volume assembly of QFN packaged products with both gold and copper bond wire material.

Impact on fit, form, function, quality & reliability:

The assembly qualification plan is designed using JEDEC and other applicable industry standards to confirm there is no impact to form, fit, function or interchangeability of the product. The remainder of the manufacturing operations (wafer fabrication, package level electrical test, etc) will continue to be processed to previously established manufacturing flow.

Products assembled with copper bond wire are classified as Moisture Sensitivity Level Three (MSL3). As such, the affected devices will be packed, labeled and shipped as MSL3 upon implementation of the changes outlined in the PCN.

Product Identification:

Product affected by this change is identifiable via Renesas's internal traceability system. In addition, product assembled at UTL may also be identified by the assembly site code (country of assembly) when marked on the devices. The site code for product assembled at

#	Assembly Site	Site Code	Remarks
1	UTL	H	For Copper wire products

Qualification status: In progress

Sample availability: 4/1/2021

Device material declaration: Available upon request

Questions or requests pertaining to this change notice, including additional data or samples, must be sent to Renesas within 30 days of the publication date.

For additional information regarding this notice, please contact your regional change coordinator (below)
