

speed II

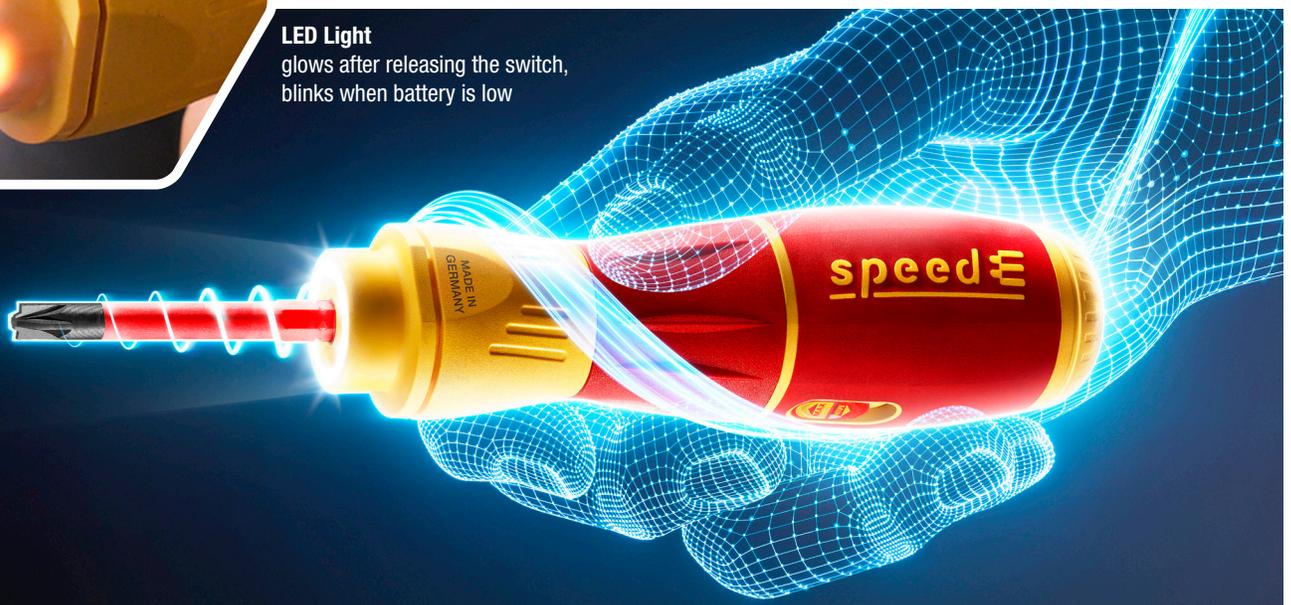

- > **Designed and engineered by Wiha Germany**
- > **Made in Germany**
set contains some global components
- > **Only compatible with Wiha SlimLine Blades**
for optimal safety and function
- > **Each SlimLine Blade is individually tested**
to 10,000V AC and rated to 1,000V AC
- > **Two power levels 0.4 Nm - 1.0 Nm / 3.5 in/lbs - 8.8 in/lbs**
for improved range of performance
- > **Torque-ratcheting function**
for hand-finishing fasteners and damage prevention
- > **Integrated ring-light**
for low-light work environments

E-SCREWDRIVER speedE® II ELECTRIC

LED Light
glows after releasing the switch,
blinks when battery is low

speedE® II Electric Screwdriver

The Wiha Insulated speedE® II electric screwdriver is faster, stronger, and more efficient than ever. The new speedE® II now features two power levels (0.4 Nm - 1.0 Nm or 3.5 in-lbs - 8.8 in-lbs) for an improved range of performance. Upon reaching the torque capacity, simply continue turning fastener by hand using the built-in ratcheting function to reach the desired tightness and thereby decreasing risk of equipment damage. Change power levels by toggling a switch integrated into a form-fit handle that delivers comfort and control and features a ring light for low-light work environments. Comes with rechargeable lithium-ion batteries for driving up to 800 fasteners per charge—USB charger with plug adapter is included.

SKU: 32490

Details

- > **VDE Certified and meet EN/IEC 60900 testing standards**
for protection against arc flash explosion
- > **ASTM F1505 standard specifications**
for insulated and insulating hand tools
