8<sup>th</sup> of Feb 2021

Dear Avnet teams

### Notice of production discontinuance of [BXF] series.

First of all, allow us to thank you and your esteemed organization for your continued support of our company.

We hereby want to announce the discontinuation of the affected products as described below. Currently, we are producing an expanded product range with many series variations to meet customer demand.

Therefore, as the number of product series increases, we have decided to integrate the BXF series into the BXW series.

The BXF series will be discontinued by incorporating products with the same specifications as the BXF series into the BXW series.

1. Items to be discontinued:

Aluminum electrolytic capacitors : BXF series

2. Schedule of the discontinuation.

28<sup>th</sup> of February 2021.

3. Alternative items:

BXW series

For further details, please contact our local sales office.

Thank you very much in advance for your understanding and cooperation!

Sincerely yours,

Naoki Irifune

General Manager
