Re: Product Transition Notice, effective October 15, 2020

Dear Valued Customer:

This letter is to inform you that effective October 15, 2020, 3M is introducing a longer Scotch® Super 33+™ Vinyl Electrical Tape roll and a new family of 3M™ Temflex™ General Use Vinyl Tapes to replace existing product offerings. The last date to purchase the discontinued SKUs will be September 30, 2020.

The new family of Temflex tapes will complement 3M's trusted Scotch® brand family of premium vinyl electrical tapes. These changes to 3M's portfolio offering of vinyl electrical tapes represent a cohesive line that allows customers to choose the appropriate tape for every task from everyday marking needs to heavy-duty industrial applications.

Scotch® Super 33+ Vinyl Electrical Tape

3M is transitioning the Scotch® Super 33+ tape 66-ft x ¾-inch roll to a Scotch® Super 33+ tape 76-ft x ¾-inch roll. This longer roll is the same great product and is offered at the same price as the 66-ft roll.

3M Temflex 165 General Use Vinyl Electrical Tape

Temflex 165 tape is designed to serve as a multi-purpose, general use PVC electrical tape. It offers reliable performance for protective jacketing, harnessing, marking and insulating low voltage cables in non-critical applications. Temflex 165 tape will be available in black and colors and will replace existing 3M Vinyl Electrical Tape 1400, and 1400 colored tape SKUs well as Temflex Vinyl Electrical Tape 1700 and 1700 colored tape SKUs.

3M Temflex 175 General Use Vinyl Electrical Tape

Temflex 175 tape is a high-performance, durable general purpose vinyl electrical tape. It offers value and reliable performance for protective jacketing, harnessing and insulating low voltage cables in indoor and protected outdoor applications. Temflex™ 175 tape is only available in black and will replace Highland Vinyl Electrical Tape SKUs and 3M Temflex 1710 tape SKUs.

Other changes

Three non-standard sized vinyl tape SKUs will transition to Temflex 1700 tape non-standard sizes.

Please refer to the table on the last page for information regarding the discontinued SKUs and the suggested replacement. However, the end user must determine whether the new product is suitable for their intended use.
