

## SAFETY DATA SHEET

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Trade name or designation of the mixture	POWER CLEAN PRO	
Synonyms	None.	
Product code	BDS001838AE	
Issue date	16-September-2020	
Version number	02	
Revision date	18-February-2021	
Supersedes date	16-September-2020	
1.2. Relevant identified uses of	the substance or mixture and uses advised against	
Identified uses	Cleaners - Heavy duty	
Uses advised against	None known.	
1.3. Details of the supplier of the	e safety data sheet	
Company name	CRC Industries Europe bvba	
Address	Touwslagerstraat 1	
	9240 Zele	
	Belgium	
Telephone	+32(0)52/45.60.11	
Fax	+32(0)52/45.00.34	
E-mail	hse@crcind.com	
Website	www.crcind.com	
1.4. Emergency telephone number	Tel.: +32(0)52/45.60.11 (office hours)	

### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

### Classification according to Regulation (EC) No 1272/2008 as amended

-	• • •		
Physical hazards			
Aerosols		Category 1	H222 - Extremely flammable aerosol. H229 - Pressurized container: May burst if heated.
Health hazards			
Skin corrosion/irrita	tion	Category 2	H315 - Causes skin irritation.
Serious eye damag	e/eye irritation	Category 2	H319 - Causes serious eye irritation.
Specific target orga exposure	n toxicity - single	Category 3 narcotic effects	H336 - May cause drowsiness or dizziness.
Environmental hazard Hazardous to the a long-term aquatic h	quatic environment,	Category 2	H411 - Toxic to aquatic life with long lasting effects.
azard summary	Pressurised con dizziness. Caus discharged into	Aerosol CONTENTS UNDER PRESSURE. Pressurised container may explode when exposed to heat or flame. May cause drowsiness or dizziness. Causes serious eye irritation. Causes skin irritation. Dangerous for the environment if discharged into watercourses. Occupational exposure to the substance or mixture may cause adverse health effects.	
2. Label elements			
bel according to Regula	tion (EC) No. 1272/200	)8 as amended	

- Contains:

Isopropanol

acetone; propan-2-one; propanone, Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, < 5%

n-hexane, Hydrocarbons, C7, n-alkanes, isoalkanes, cyclic, Propan-2-ol; Isopropyl alcohol;

Hazard pictograms

Ciamal ward

Signal word	Danger		
Hazard statements			
H222	Extremely flammable aerosol.		
H229	Pressurized container: May burst if heated.		
H315	Causes skin irritation.		
H319	Causes serious eye irritation.		
H336	May cause drowsiness or dizziness.		
H411	Toxic to aquatic life with long lasting effects.		
Precautionary statements			
Prevention			
P102	Keep out of reach of children.		
P210	Keep away from heat/sparks/open flames/hot surfaces No smoking.		
P211	Do not spray on an open flame or other ignition source.		

FZII	Be net opial on an open name of earler ignation cearee.
P251	Pressurised container: Do not pierce or burn, even after use.
P261	Avoid breathing mist/vapours.
P271	Use only outdoors or in a well-ventilated area.
Response	Not available.
Storage	
P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Disposal	
P501	Dispose of contents/container (in accordance with related regulations).
Supplemental label information	Regulation (EC) No 648/2004 on detergents: aliphatic hydrocarbons > 30 %
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.

### **SECTION 3: Composition/information on ingredients**

### 3.2. Mixtures

### **General information**

Chemical name	%	CAS-No. / EC No.	<b>REACH Registration No.</b>	Index No.	Notes

### List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).

M: M-factor

PBT: persistent, bioaccumulative and toxic substance.

vPvB: very persistent and very bioaccumulative substance.

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

#### **Composition comments**

The full text for all H-statements is displayed in section 16.

### **SECTION 4: First aid measures**

General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
4.1. Description of first aid measured	ures
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison centre or doctor/physician if you feel unwell.
Skin contact	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	In the unlikely event of swallowing contact a physician or poison control centre. Rinse mouth.
4.2. Most important symptoms and effects, both acute and delayed	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.
4.3. Indication of any immediate medical attention	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

immediate medical attention and special treatment needed Symptoms may be delayed.

### **SECTION 5: Firefighting measures**

General fire hazards	Extremely flammable aerosol.
5.1. Extinguishing media Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	Contents under pressure. Pressurised container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters Special protective equipment for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Special fire fighting procedures	Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapour pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.
	Les standard firstinging procedures and experiently because of the involved potentials. In the

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials. In the event of fire and/or explosion do not breathe fumes.

### **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Wear appropriate personal protective equipment.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil etc) away from spilled material. The product is immiscible with water and will spread on the water surface. Prevent product from entering drains. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS

### **SECTION 7: Handling and storage**

7.1. Precautions for safe handling	Pressurised container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing mist/vapours. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

### **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

#### **Occupational exposure limits**

### UK. EH40 Workplace Exposure Limits (WELs)

Components	Туре	Value	
acetone; propan-2-one; propanone (CAS 67-64-1)	STEL	3620 mg/m3	
		1500 ppm	
	TWA	1210 mg/m3	
		500 ppm	
Carbon dioxide (CAS 124-38-9)	STEL	27400 mg/m3	
		15000 ppm	
	TWA	9150 mg/m3	
		5000 ppm	
Propan-2-ol; Isopropyl alcohol; Isopropanol (CAS 67-63-0)	STEL	1250 mg/m3	
		500 ppm	
	TWA	999 mg/m3	
		400 ppm	

### EU. Indicative Exposure Limit Values in Directives 91/322/EEC, 2000/39/EC, 2006/15/EC, 2009/161/EU, 2017/164/EU

Components	Туре	Value	
acetone; propan-2-one; propanone (CAS 67-64-1)	TWA	1210 mg/m3	
		500 ppm	
Carbon dioxide (CAS 124-38-9)	TWA	9000 mg/m3	
		5000 ppm	
ological limit values	No biological exposure limits noted	or the ingredient(s).	
commended monitoring	Follow standard monitoring procedu	res.	

## Recommended monitoring procedures

## **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

Appearance

Liquid.
Aerosol
Colourless.
Solvent.
Not available.
Not applicable.
-94.7 °C (-138.5 °F) estimated
56 - 99 °C (132.8 - 210.2 °F)
-26.0 °C (-14.8 °F)
2.8 (Ether=1)

Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	2.5 % estimated
Flammability limit - upper (%)	12.8 % estimated
Vapour pressure	Not available.
Vapour density	3
Vapour density temp.	20 °C (68 °F)
Relative density	0.71 g/cm3
Relative density temperature	20 °C (68 °F)
Solubility(ies)	
Solubility (water)	Insoluble in water
Partition coefficient (n-octanol/water)	BLANK
Auto-ignition temperature	> 200 °C (> 392 °F)
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidising properties	Not oxidising.
9.2. Other information	
Aerosol spray enclosed spa	ICe
Deflagration density	Not available.
Aerosol spray ignition	Not available.

Aerosol spray ignition distance	Not availabl
Chemical family	Cleaner
VOC	685 g/l

## **SECTION 10: Stability and reactivity**

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Avoid high temperatures. Avoid temperatures exceeding the decomposition temperature.
10.5. Incompatible materials	Acids. Strong oxidising agents. Aluminium. Chlorine. Isocyanates.
10.6. Hazardous decomposition products	Carbon oxides.

## **SECTION 11: Toxicological information**

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of	exposure
Inhalation	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.
11.1. Information on toxicologic	cal effects

### Acute toxicity

Based on available data, the classification criteria are not met.

Components	Species	Test Results
acetone; propan-2-one; propanone	e (CAS 67-64-1)	
<u>Acute</u>		
Dermal	_	
LD50	Rat	15800 mg/kg
Hydrocarbons, C6-C7, n-alkanes,i	soalkanes,cyclics,< 5% n-hexane	
<u>Acute</u>		
<b>Dermal</b> Liquid		
LD50	-	2920 mg/kg bw/day, 24 h
Inhalation		
Vapour		
LC50	Rat	25200 mg/m³, 4 h
Oral		
Liquid		
LD50	Rat	5840 mg/kg bw/day
Skin corrosion/irritation	Causes skin irritation.	
Serious eye damage/eye irritation	Causes serious eye irritation.	
Respiratory sensitisation	Based on available data, the classification c	riteria are not met.
Skin sensitisation	Based on available data, the classification c	riteria are not met.
Germ cell mutagenicity	Based on available data, the classification c	riteria are not met.
Carcinogenicity	Based on available data, the classification criteria are not met.	
Reproductive toxicity	Based on available data, the classification c	riteria are not met.
Specific target organ toxicity - single exposure	May cause drowsiness or dizziness.	
Specific target organ toxicity - repeated exposure	Based on available data, the classification c	riteria are not met.
Aspiration hazard	Based on available data, the classification c	riteria are not met.
Mixture versus substance information	Not available.	
Other information	Not available.	
SECTION 12: Ecological in	nformation	
12.1. Toxicity	Toxic to aquatic life with long lasting effects.	
12.2. Persistence and degradability	No data is available on the degradability of a	any ingredients in the mixture.
12.3. Bioaccumulative potential		
Partition coefficient n-octanol/water (log Kow)		
acetone; propan-2-one; propa Propan-2-ol; Isopropyl alcoho		
Bioconcentration factor (BCF)	Not available.	
12.4. Mobility in soil	No data available.	
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances as (EC) No 1907/2006, Annex XIII.	ssessed to be vPvB / PBT according to Regulation
12.6. Other adverse effects	The product contains volatile organic compo potential.	ounds which have a photochemical ozone creation
SECTION 13: Disposal co	nsiderations	
13.1. Waste treatment methods		
Residual waste		ons. Empty containers or liners may retain some ainer must be disposed of in a safe manner (see:

The Waste code should be assigned in discussion between the user, the producer and the waste EU waste code disposal company. **Disposal methods/information** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. **Special precautions** Dispose in accordance with all applicable regulations. **SECTION 14: Transport information** ADR 14.1. UN number UN1950 **AEROSOLS** 14.2. UN proper shipping name 14.3. Transport hazard class(es) 2.1 Class Subsidiary risk Hazard No. (ADR) Not available. Tunnel restriction code (D) ADR/RID - Classification 5F code: 14.4. Packing group Not applicable 14.5. Environmental hazards No 14.6. Special precautions Read safety instructions, SDS and emergency procedures before handling. for user ΙΑΤΑ UN1950 14.1. UN number **AEROSOLS** 14.2. UN proper shipping name 14.3. Transport hazard class(es) Class 2.1 Subsidiary risk 14.4. Packing group Not applicable 14.5. Environmental hazards No 14.6. Special precautions Read safety instructions, SDS and emergency procedures before handling. for user IMDG 14.1. UN number UN1950 14.2. UN proper shipping AEROSOLS name 14.3. Transport hazard class(es) Class 2.1 Subsidiary risk Not applicable 14.4. Packing group 14.5. Environmental hazards Marine pollutant No EmS F-D, S-U 14.6. Special precautions Read safety instructions, SDS and emergency procedures before handling. for user 14.7. Transport in bulk Not established. according to Annex II of MARPOL 73/78 and the IBC Code ADR; IATA; IMDG

### **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### EU regulations

- Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended Not listed.
- Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended
- Not listed. Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended
  - Not listed
- Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended Not listed.
- Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended Not listed.
- Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

# Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended acetone; propan-2-one; propanone (CAS 67-64-1)

Carbon dioxide (CAS 124-38-9)

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

### Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

### **Restrictions on use**

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended acetone; propan-2-one; propanone (CAS 67-64-1)

Propan-2-ol; Isopropyl alcohol; Isopropanol (CAS 67-63-0)

## Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended.

Not listed.

### Other EU regulations

### Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

acetone; propan-2-one; propanone (CAS 67-64-1) Propan-2-ol; Isopropyl alcohol; Isopropanol (CAS 67-63-0)

Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation
National regulations	<ul> <li>(EC) No 1907/2006, as amended.</li> <li>This safety data sheet conforms to the following laws, regulations and standards:</li> <li>This safety data sheet conforms to the following laws, regulations and standards:</li> <li>Act on the management of packaging and packaging waste of June 13, 2013</li> <li>Regulation of the Minister of Health of June 11, 2012 on the categories of dangerous substances and dangerous preparations whose packaging should be fitted with child-resistant closures and a tactile warning of danger</li> <li>REGULATION OF THE MINISTER OF HEALTH of February 2, 2011 on tests and measurements of factors harmful to health in working environments</li> <li>Regulation of Ministry of Labor and Social Policy of June 6, 2014.
