

Non-Contact AC Voltage Detectors **multicomp** PRO

MP780767

MP780769

RoHS
Compliant

Description

These professional grade voltage detectors are designed with IP67 dust/water resistant and can withstand 2 meters drop. These durable devices are great for working in harsh environments. MP780767 has an optional vibration mode and MP780769 is able to detect magnetic fields.

Applications

Low voltage mode: Low-voltage motor (<90V), audio systems, arc welding machines, underground mining lighting, cables with thick insulation layer and other weak electromagnetic AC signals.

High voltage mode: Urban electric supply and three-phase systems (90V to 1000V). For example, power distribution units, electrical panels, electrical appliances.
