

Product Change Notice: Various EEE-xx Series Aluminum Electrolytic Capacitors Country Of Origin Change

PCN.PG25.2.4.2021

2.4.2021

About This Notice:	The production location of several EEE-xx Series of Panasonic Aluminum Electrolytic Capacitors is being transferred, starting in Q1 CY2021. SMD 125°C and SMD 16 x 6.5mm case size products will now be produced in the Panasonic Malaysia factory. Formerly, these were manufactured in Yamaguchi, Japan. This change will allow Panasonic to better support customers and enable improved production capacity of the Conductive Polymer Hybrid Capacitor lineup, whose primary manufacture location is in Yamaguchi, Japan.
Effective Date:	Immediate
Change Details:	Current factory location: Yamaguchi, Japan. New factory location: Shah Alam, Selangor, Malaysia
Affected Parts:	See Attached.
Datasheet(s):	See Attached.
Notes:	Delivery lead time will not be affected by factory relocation. Any PO's for the Affected Parts placed 2/1/21 or later will be produced in Malaysia. There are no BOM changes associated with this Product Change Notice.
