		PCN NO:	P-20-083101
Distribution:	Change of spray code position		

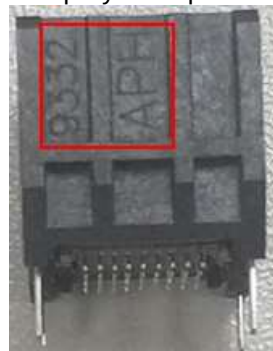

Product Change Notice

Spraying the code change:

Change spray code position from the side to the front

Before: Spray code position in side

After: Spray code position in Front

Background:

Spraying code is a manual process at present, Amphenol would like to incorporate it into the automatic assembly line to improve the process stability, the code position will be changed from the side to the front, and the code "Amphenol" will be update to "APH", This change will not impact the function of the product.
