TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

INSULATION INSERT,180DEG

Description of Changes

Duplication of a mold tool for the TE component PN 2177058-1 INSULATION INSERT,180DEG. Tool 21-1947502 build at outside supplier and serial production at TE Kurim.

Reason for Changes:

Customer Request. Dear Customer, we hereby inform you about a tool / process localization action to secure our Supply Chain towards customers as well as amend TE's footprint. The transfer follows a strict procedure which fully maintains quality, ability to supply and form-fit-function of concerned products. The new - additional manufacturing location operates under a certified Quality Management System and respective OEM releases in accordance with standard automotive requirements and respective customer specific requirements. TE focuses on internal delivery releases. A TE-internal release test of the localized process will be executed based on one representative assembly part number, specified by the responsible Product Engineering.
