Product Change Notification					Global Labeling Ph. 3 Fuseholders		
owner	creation date	release date	released by	change order no	rev	page	D10-055-743
dislercy	02.03.2021	12.03.2021	bucherfa	2021636	A	1 of 3	

2 Type of change

- Modified packaging label
- Improved identification: product configuration code on the label

3 Detailed description of change

The following table describes the modifications applied to the new packaging label. All listed product types share the same packaging label design. To better visualize the modifications, colours and numbers were added to this chapter to cluster information into sections (the colours and white numbers are therefore not part of the new label layout). An old and a new label has been added as an example for visualization.

Product identification section: To improve readability, all the information concerning product identification in this group is clustered. Furthermore, some of the content/ text of the label is subjected to following changes (see highlighted red areas on the labels of the following page):

- Product Type: Has been updated for some part numbers (harmonize description & improve identification).
- Configuration Code: Has been updated for some part numbers (no physical change to the product).
- Part Description: Has been updated for some part numbers (harmonize description & improve identification).

→ For details on text/ content that has been changed please see list attached to this PCN.

Product conformity section: Identical information, slightly rearranged.

Product logistics section: Identical information, slightly rearranged. "Date" changed to "Date Code".

Product approval section: Identical information, slightly rearranged. Current rating added.

Product rating section: Identical information, slightly rearranged. Current rating added.

Origin information section: Identical information, slightly rearranged. Factory Code identifier "FC" added.

Old packaging label (all product types)	New packaging label (all product types)

4 Reason of change

SCHURTER improves and modernizes the label printing process to increase standardization and harmonize processes throughout all SCHURTER factory locations.

5 Release date

Packaging labels will be changed earliest in week 15/2021 (Date code 2115 or higher on the label).

Product Change Notification					Global Labeling Ph. 3 Fuseholders		
owner	creation date	release date	released by	change order no	rev	page	D10-055-743
dislercy	02.03.2021	12.03.2021	bucherfa	2021636	A	2 of 3	

6 Impact of change and recommended action

Form	No	
Fit	No	
Function	No	
Manufacturing	No	
Label	Yes	No actions required since bar code & 2D-code are not affected by the change.
Packaging	No	

7 Reference Documents / Attachments

Kind of document	Remarks
List of affected part numbers	List contains a comparison of text/ content between old and new labels in reference to chapter 3. "Product identification section"
