

INTRODUCTION

This is a SOP8 to DIP8 Adapter Board. You can change the SOP8 to DIP8 packaging. So that you needn't to buy the DIP chips for prototyping specially. Just solder the SMD chips on the board and plug it into the bread board will make you convenient to do prototyping. It can be used repeatedly also.

SPECIFICATION

Board Color: Black

Size: 11.2x11.4 x 1.6mm (0.44"x0.45"x0.06")

DOCUMENTS

Tutorial of soldering

SOP8 datasheet

SHIPPING LIST

Prototyping Board-SOP8	(1 unit)
4 Pin Headers-Straight	(2 unit)
