DESCRIPTION AND PURPOSE OF CHANGE:

In order to enhance the product reliability, Würth Elektronik released a new firmware for the Proteus-III and Proteus-III-SPI radio module, as well as the corresponding USB radio sticks and evaluation kits.

All products with date code 1st of August 2021 or later, will be affected by this change.

DETAIL OF CHANGE:

The firmware version of the radio module Proteus-III, Proteus-III-SPI and Proteus-III USB radio stick will increase its revision to 1.3.0.

The new firmware will contain new features that are disabled by default. All new firmware features will be described in the user manual in the chapter "Firmware history", that will be available in July 2021.

By default, there is no change in form, fit and function.

RELIABILITY / QUALIFICATION SUMMARY:

Product approval is according to the specification and is internally released by the Product Management Department.
