

FX-801 Heavy Duty High Power Soldering Station 300W

SKU: HFX801-16

Model No.	Packing List
FX-801	<p>1. FX-801 Station, 2. Soldering Iron Handpiece (FX-8002-81) 3. Heat resistant pad (B2300), 4. Power cord, (B2425) 5. Connecting cable (B3253), 6. Iron holder (with cleaning wire) (FH200-83), 7.</p>  <p>Instruction manual</p>

Specifications

Model No.	FX-801
Power consumption	300W
Temperature range	50 to 500°C
Temperature stability	±5°C at idle temperature
Station	
Output voltage	AC 29V
Dimensions	145(W)×107(H)×211(D)mm

Weight	3.9kg
Soldering Iron	
Power consumption	260W (29V)
Tip to ground resistance	<2Ω
Tip to ground potential	<2mV
Heating element	Composite heater
Cord length	1.2m
Weight	5.671 kg

Make the impossible possible with Super Power of 300 W Heater.

FX801 High Power Soldering Station can provide tremendous heating performance with super power 300 W composite heater

Light weight handpiece -approx. 50 g

Light weight handpiece provides good workability and reduces burden in hand soldering.

Large LED display

An LED display roughly double the size of a previous model is very easy to see.

Preset mode

Up to 6 settings can be preset and easily called up by Up/Down buttons.

This is a convenient function to change set temperature quickly.

Password function

Settings can be locked from unnecessary changes by password function.

Strict temperature control is possible.

Auto Sleep/Auto Shut-off function

The function automatically drops tips tempetaure or turns off heater just by placing a handpiece in the holder.

This minimizes oxidation and thermal stress to soldering tip.

Handles on unit body

Handles on unit body make it easy to carry.

A wide variety of tip shapes
