

PRODUCT CHANGE NOTIFICATION

| | |
|-------------------|------------|
| PCN No: | PCN-SM2111 |
| Announcement date | 2021-06-04 |

1. Affected Product(s):

Please see attached file for ‘list of affected part numbers’
Reliability evaluation and schedules are categorized into Group A-D,
also shown in the attached file.

2. Description of Change

Before: mold resin A (Halogen content)
After: mold resin B (Halogen-free, proven in our other products)
There will be no change in mold resin B after the transfer to
the Hefei Plant

3. Reason of Phasing Out:

Tongfu Microelectronics, one of our backend manufacturing subcontractors, gave us a short notice that the mold resin currently used will be unavailable, resulting in the stop of the production as soon as their current stock is used up. After several rounds of urgent negotiation with the subcontractor, we have decided to reluctantly change the mold resin in order to keep the supply of our products to our valued customers.

4. Substitute

Products after changing

- Group(A)
Changed products are scheduled to be shipped out from July.
- Group(B)
Changed products are scheduled to be shipped out from the end of August (After reliability evaluation).
- Group(C)
Changed products are scheduled to be shipped out from the middle of September (After reliability evaluation).

Hefei Factory production start from October, 2021.

-
- Group(D)
Changed products are scheduled to be shipped out from the end of August (After reliability evaluation).
Then, the production will be completed next March.
