3M™ Protective Eyewear Product Discontinuation

Dear Valued Customer,

In a continued effort to optimize and focus efforts on expanding foundational platforms such as SecureFit™ and Solus™ series within the 3M™ Protective Eyewear product line, 3M's Personal Safety Division will be discontinuing the 2720, 2820 and Tora legacy protective eyewear families.

We are targeting to run out of inventory by February 1st 2022. Potentially this could occur earlier and without warning for some items due to large variations in demand.

Replacement Options

With the introduction of the SecureFit™ 100 and SecureFit™ 500 ranges we have great new alternative products you may want to consider.

In the table below you will find the discontinued items as well as a recommendation for an alternative item.

Discontinued SAP ID	Discontinued Legacy ID	Description discontinued product	Alternative SAP ID	Alternative Legacy ID	Description alternative product
7000032450	DE272932943	2720 Clear AS/AF	7100244064	XA006515507	SF101AF-BLU, Clear AS/AF
