## PRODUCT DATA SHEET

Preparation  Ensure the timber surfaces are clean and free from previous coatings, grease and contaminants. Surfaces may be damp but the protector should not be applied to decaying wood, which should be replaced.  Application  Shake well and stir before use. Apply by brush or coarse spray.  Coats  Apply a minimum of 2 coats.  Drying Time  Between 10-15 minutes depending on temperature and humidity.  Re-coating Time  It is important that the second application is applied before the first is dry.  Application Temp.  Ideally 15 - 25°C. Do not apply below 10°C.  Coverage  3 - 4sq. metres/litres per coat, depending on absorbency of the surface.  Maintenance  Re-apply periodically.  Compatibility  Not compatible with previous coatings, grease and contaminants.  Settlement  Shake well and stir before use or colour obtained will not be correct.  Shelf-life/Storage  Very toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water protective clothing, gloves and eye/face protection.  A full Safety Data Sheet is available on request and on Rustins website.		,
Intended Use As a coating for the protection of all types of timber end grain.  Finely Dispersed ingredients giving better wood end grain penetration and is quick drying. Ready to use – do not dilute.  Freparation  Freparation  Freparation  Freparation  Application  Coats  Apply a minimum of 2 coats.  Drying Time  Between 10-15 minutes depending on temperature and humidity.  Re-coating Time  It is important that the second application is applied before the first is dry.  Application Temp.  Coverage  A= 4sq. metres/litres per coat, depending on absorbency of the surface.  Maintenance  Compatibility  Not compatible with previous coatings, grease and contaminants.  Settlement  Shake well and stir before use. Apply below 10°C.  Coverage  3 - 4sq. metres/litres per coat, depending on absorbency of the surface.  Shake well and stir before use or colour obtained will not be correct.  Shelf-life/Storage  Store in a cool dry place with the lid tightly closed. Use within 2 years of manufacture.  Very toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water. Wear protective clothing, gloves and eye/face protection.  A full Safety Data Sheet is available on request and on Rustins website.	Product	Advanced End Grain Wood Protector.
Special Features Finely Dispersed ingredients giving better wood end grain penetration and is quick drying. Ready to use – do not dilute.  Ensure the timber surfaces are clean and free from previous coatings, grease and contaminants. Surfaces may be damp but the protector should not be applied to decaying wood, which should be replaced.  Application Shake well and stir before use. Apply by brush or coarse spray.  Coats Apply a minimum of 2 coats.  Drying Time Between 10-15 minutes depending on temperature and humidity.
