

Description

The UniCable kit provides an ideal way to create any test cable needed. Along with the UNIDAPT Kit you can now mix and match any combination of connectors or adapters to the ends of a 48" cable assembly. The UniCable Kit is a six piece set essential for shop or lab use. It includes a wire rack designed for storage convenience.

The cables are extra flexible type RG-58A/U with 100% double braid shielding (copper braid over mylar aluminium foil). The jacket is PVC, matte blue with blue molded strain reliefs. The UNIDAPT connectors at both ends are silver plated machined brass and gold plated contacts with PTFE dielectric.

The wall rack is cable friendly and keeps cables organized and in their place.

Specifications

Impedance	: 50Ω
Frequency Range	: DC to 1GHz
Cable	: RG-58A/U, 20 AWG
Capacitance	: 94.8 pf/m Nominal
