

Cat5e UTP Couplers/Economisers Shielded Cat.5E In-Line Couplers

Part No: 4263P

The Cat.5E in-line coupler adaptors enable two existing RJ45 patch cables to be joined together with a minimum effort. They are wired in a straight through configuration and available in both standard and low profile versions. The fully shielded version is supplied as a unit with internal metal can (for RFI/EMC protection) contained in a metalised casing.

Features & Benefits

- Compact RJ45 socket to socket Cat.5E and Cat.6 compliant device with new low profile version
- Two inch solid adaptor - designed for joining two standard wired patch cables
