

Sugru by

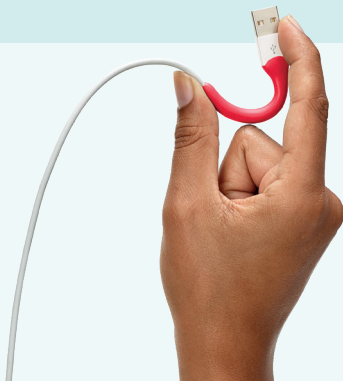

Sugru Mouldable Glue has joined a bigger fixing family.

In 2018, Sugru, the award-winning, London-based mouldable glue brand, joined forces with tesa®, a global market leader in adhesive tapes and self-adhesive system solutions. With an unrivalled history of inventing and selling breakthrough products for fixers, makers, craftspeople and professionals, tesa® is committed to building Sugru's innovative product portfolio and eco brand mission.

Sugru by tesa will be available online and in selected retailers in 2019.

What is Mouldable Glue?

Sugru is the world's most versatile glue. Out of the pack, it's designed to feel soft and malleable like play-dough. Roll the material in your fingers, press it where you need it, and mould it by hand into any shape. From an ultra-thin patch to a shock-absorbing bumper, you have 30 minutes to shape it, smooth it, and reposition it as required.

Flexible

Leave it to cure for 24 hours. Thanks to its **Advanced Silicone Technology**, Sugru turns into a strong, flexible and tactile silicone rubber overnight. It sticks like nothing else on leathers, fabrics or flexible plastics.

Waterproof and durable

Once cured, Sugru is waterproof and long-lasting, just like other silicone rubbers. So you can use it in challenging environments like wet bathrooms, shower and sink areas—even outdoors with long-term exposure to the sun, sea and other weather conditions.

ADVANCED **SILICONE** TECHNOLOGY

Heat & Cold Resistant

Waterproof

Holds up to 2kg

Weatherproof
