Product Notice	<p>2021 remains a challenging year for the global electronics supply chain. Lead times continue to extend as components experience allocations in all categories and suppliers implement price increases. Digi OEM products contain processors, memory, and other application specific parts, which have been highly impacted. As a result, new product initiatives have been delayed due to parts availability.</p> <p>In order to address this lead-time issue, Digi has identified a subset of NPI SKU's that can be used in multiple applications. Working with our operations team, we will maintain minimal stock for development purposes and to support design-in activities. The lead-time on all NPI SKU's will be changed to "Call for Quote". Please share the business opportunity with your Sales Representative for Product Management review.</p> <p>If you have any questions, please contact your Digi Sales Representative</p>

Affected Products	See Appendix below, Lead time will change to "Call for Quote"
Timing of Change	Lead time changes are effective as of the October 2021 published price update
