Details of this change

Note: This PCN 202110029F will be withdrawn because of technical fault in the selection of products. Corrected PCN 202110031F will follow.
Nexperia's Business Group Bipolar Discretes will remove the "Automotive qualification status" for selected parts of its standard portfolio. At the same time, a new portfolio with Automotive qualified products "Q-Portfolio" will be released. Types of the new Q-Portfolio will be named with "-Q" at the end of the type-number. This PCN contains a cross list for the product types which will be introduced at present.

Why do we implement this change?

To inform customers of standard products that the automotive qualification status will be removed as of 1st October 2022.

To inform customers who need automotive qualified products about the change of the type-number and the 12NC (ordering code). If required, customers must change their orderbook to the related Q-parts. In rare cases not all package variants are available as Q-part. Then the default packing variant needs to be used (e.g. order code ending -115).

Identification of affected products

Products of the new Q-Portfolio can be identified by new type number and new 12NC order code. The marking on the product is unchanged.

Management summary

Note: This PCN 202110029F will be withdrawn because of technical fault in the selection of products. Corrected PCN 202110031F will follow. New type number and ordering code (12NC) for Automotive qualified products. Removal of "Automotive qualification status" of current (standard) products.

Data sheet revision

A new datasheet will be issued

Disposition of old products

The changes on standard portfolio will apply from 1st of October 2022 onwards (products with production date-code before 1st of October 2022 are guaranteed AEC Q-101 compliant)
