Tool case set XXL III electric

100-pcs.

Discover new worlds.

Product description

Electricians require a great variety of tools at different locations. Many tool cases do not provide sufficient stability and fitting all required tools in an organized way often requires great effort. As opposed to this, the tool case XXL III electric from Wiha combines an impressive tool assortment, enough storage space and absolute robustness. Thanks to its extra large wheels it is very easy to conveniently pull the case along on rugged terrain or stairs. The legs can be folded out, turning the case into a slip-proof step. In addition, the raised position allows the comfortable and strain-free removal of the tools. The V-shaped incision with a scale in the lid of the case facilitates the sawing of materials, such as cable ducts, at the construction site. The comprehensive set of components of the XXL III electric provides the right tool for every situation. Ergonomic screwdrivers, innovative plier solutions, a mobile screwdriver and slimVario® bit set for quick service, in addition to many other tools, considerably facilitate everyday work. At the same time, the fully insulated tools protect users who work on live parts. What is more, the muscles and tendons are notably less strained due the ergonomic hand tool design by Wiha, especially during extended use. Made of robust polypropylene, the case also features gas-filled shock absorbers, which hold the lid in different positions, preventing it from closing accidentally and smashing fingers.

Dimensions

68,3 x 49,6 x 33,5 cm

- 1x Tool set slimVario® electric mixed, 32 pcs. incl. multifunctional bag (43465)
- 1x Pliers wrench Classic 250 mm (40923)
