

Strip Heater Accessories

Terminal Covers and Insulators

Secondary Insulation Bushing: (All types except NS) Must be used when strips are mounted for air heating only or when connected in series on line voltages above 480V. (**Note:** To accommodate bushings, a $1\frac{7}{32} \times 1\frac{1}{16}$ " Dia. mounting hole in tabs should be specified for heaters. Delivery from stock. To order secondary insulation bushings, use model number **PCN255716**.

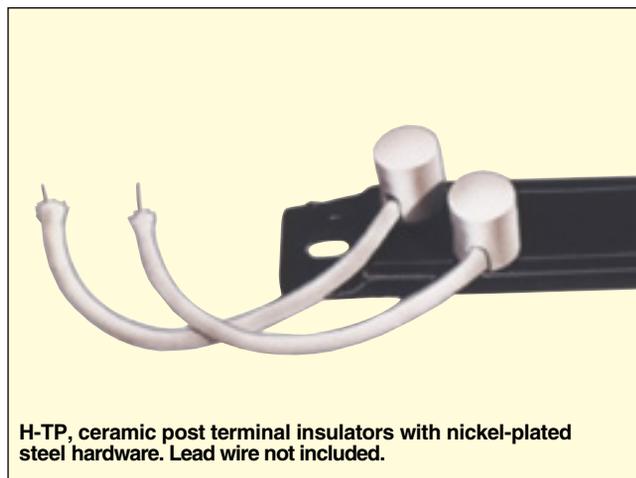

Secondary Insulation Bushing Kit: Kit includes bushing and hardware for one strip.

Ceramic Post Terminal Insulators: All types except NS and SN. Use with insulated wire to protect against electrical shock. Wires can leave terminal at any angle. For strip heaters only. H-TP.

Protective Terminal Covers: OT, PT, SE, WS, and seamless types SSE, SSEM, SSNH, and SSNHM. Guards terminals from spillovers, dripping, grounding or short circuiting. Removable sheet-metal cover with BX fitting is shipped separately.

Strip heaters can be provided with a lengthwise bend or cross-section

curve, without mounting tabs or with extra strong mounting tabs. Special strip heater lengths, special length terminals, special voltages and/or wattages, special wattage distributions, and special sheath materials (stainless steel or Monel®) can be provided. Contact OMEGA for details.

To Order

Strip Heater Accessories

Model No.	Description
PCN255716	Secondary insulation bushing (2 pack)
H-TP	Ceramic post terminal insulators (2 pack)
OT-AC-1	Terminal cover for OT Series strip heaters
PT-AC-1	Terminal cover for PT Series strip heaters
SE-AC-1	Terminal cover for SE Series strip heaters

Terminal Covers Dimensions: cm (in)

Model Number	A	B	C
OT-AC-1	5 (2)	6 (2½)	6 (2½)
PT-AC-1	2 (1⅞)	3 (1⅞)	4 (1¾)
SE-AC-1*	5 (2⅞)	4 (1½)	5 (2)

* Alloys used on type WS (mounted sideways).

Ordering Examples: PCN255716, insulation bushing.
H-TP, ceramic post terminal insulators.
