Stripping Tools
The hand-operated AMP Coaxial Cable Stripper features interchangeable, color-coded blade cassette and V-blocks to accommodate 2- or 3-step stripping for cable diameters ranging from 2.54 [1.0] through 7.62 [3.0]. You strip cable by simply clamping and rotating the tool around the cable. See Instruction Sheet IS 2766 for further information.

Semi-Rigid Cable Tooling
The tools listed here are designed specifically to strip and terminate semi-rigid cable. These tools operate basically the same as the flexible cable tools, in that they produce uniform terminations time after time, without heat damage from soldering.

Part Number 59980-1
Frame only — does not include dies and locator

----

Manual Trim and Point Tool
Tyco Electronics offers a manual tool that performs both trimming and pointing operations. Tools are available for .141 [3.58] and .085 [2.16] diameter semi-rigid cable. These hand-operated tools are ideally suited for engineering, small production runs or field use. They feature tungsten carbide cutters for durability up to 30 times longer than the life of a high speed steel cutter. Replacement cutters are interchangeable and may be purchased separately.

Replacement Cutters
Trimmer: Part Number 1055813-1
Pointer: Part Number 1055814-1

Cable Benders for Semi-Rigid Cable

---

Trimming Tools for Semi-Rigid Cable
For soldered semi-rigid cable connectors using the cable center conductor as its contact. These tools are optional for most installations but recommended for optimum connector performance.
