

CREALITY

## Medium Size 3D Printer Multifunction Enclosure

MFR: 4008030002

### Product Information

**Good Heat Preservation Effect**

**Flame Retardant, Rub Resistance**

**Removable**

|                                                                                   |                          |

## Thermal insulation printing at constant temperature

Enclosure with thermal insulation reduces the impact of low temperature on printing, so that the printer works at constant temperature

## Flame retardant, safer printing

Aluminum foil with flame retardant has high temperature resistance and corrosion resistance, to print more safely

## Easy to install and remove

Easy to install, remove and use

## Delicate details

Enclosure is reliable with delicate details and high quality

### Waterproof design

Selected aluminum foil, waterproof and windproof. Keep constant temperature printing in the enclosure under complicated conditions

### Corner connector 3-way

Stable support with corner connector 3-way and difficult to shake

### High quality aluminum foil

Fine craft displays exquisite details

### Tight zipper head

Exquisite stitches, corrosion resistance and color fading resistance
