Micro USB Extension Cable with Power Switch

A handy extension cable with power switch removing the need to pull the Micro USB connector out of your device every time you want to power up/down or reset. The switch itself has a solid 'click-on-click-off' action and sits in the middle of the 25cm lead, making it ideally positioned beside your device when connected. Ideal for Raspberry Pi Zero/Pi3 models, Mini PC's, tablets, smart phones and various Bluetooth devices.

- Micro USB socket to Micro USB plug Extension
- Integral power button with solid click action

Cable : diameter 3.5mm Cable : length 25cm
